REGISTTER OF COMMONWEALTH ENGINEERS

The Commonwealth Engineers Council feels that the participating institutions should compile a list of names of those members to whom the credential cards have been issued and send the list to CEI Secretariat in London as well as to all other participating institutions for their reference and record and when the need may arise. This will ensure that members will not find any difficulty in introducing themselves and availing the facilities which a holder of the Credential Card should get during their visit abroad.

Some facilities are provided by the Commonwealth Engineers Council, London, for enrolment in the Register. For information one may see the December 1975 or March 1976 or December 1976 issues of the I E (I) Bulletin.

Members who are desirous of entering their names on the Register and to obtain the Credential Cards for identification after enrolment may write to the Secretary asking for the prescribed form. They will be required to fill in this form and send two copies of passport size photograph duly signed on the face together with a fee of Rs. 25 (this fee has been fixed to cover expenses in connection with correspondence and maintaining the Register).

Members are requested to kindly note that this Registration will be useful to only those members who are going abroad. It is essential to obtain a passport first before applying for this registration.
