**Subject:** RE: SAUDI COUNCIL OF ENGINEERS

**Dear Dr. Gupta,**

**Greetings from Saudi Council of Engineers!**

**Thank you very much for the detailed information on A & B Section exams.**

**Yes, the A & B pass certificate holders were not accepted for registration when SCE started accreditation. Within the first quarter, and after reviewing the supporting documents and considering the Indian Govt order, the undersigned (an Indian, working with SCE, and being consulted by the professional accreditation department as a subject specialist) was able to convince the accreditation committee to accept the A & B sessions pass certificates for professional registration with SCE. Ever since, SCE recognizes A & B Sessions Exam and has accredited duly.**

**If any of your graduates face any difficulties with regard to recognition of their A & B Sessions certificate, you may please refer them to the undersigned or Engr. Sulaiman Al Amoud, the Director General of Professional Accreditation Center at SCE. Should you need any further clarifications or enquiry from IEI, you may please contact my personal number +966567385860 or continue through email.**

**For your kind information,**

**Thanks and best regards,**

**Mohammed Shafi  
International Relations**
