Subject: RE: accreditation of AMIE

Dear Kapil

We have started attesting the documents for AIME

Thanks, Yukti

Subject: accreditation of AMIE

Dear Madam

Please find attached the latest format of certificate issued by Institution of Engineers, this certificate clearly states that pass in section A&B of Institution's examination is equivalent to bachelors degree in engineering.

I hope there is no doubt remaining now in the accreditation of AMIE as bachelor degree in engineering.

I had given a copy of this mail to Mr. Bishnujee Singh who is a Fellow of Institution of Engineers Australia, chartered engineer & chartered scientist of EC - UK.

You can also contact to him for any clarification of recognition & accreditation status of Institution of Engineers (India) in USA.

Mr. Bishnujee presently working for BOEING in USA & is associated with Professional Bodies in United States, Canada & UK. He is involved in careful screening of Qualifications of International Institutions.

He will definitely help you solve any query regarding the above matter.

His contact details are Bishnujee.Singh@boeing.com, bishnujee@physics.org
